Dear Dennis,

I found the name of the book I mentioned to you on the way back from the last meeting.

Watergate in American Memory
How We Remember and Reconstruct the Past
Michael Schudson

The "Was Oswald a Spy" article in Sunday's NY Times Magazine wasn't worth reading. Enclosed is a copy of Thornley testimony to the Warren Commission in which a "Colonel Poindexter, an air ace in Korea" is mentioned. Straight out of the blue, could this be Colonel John Poindexter, an aide or some such figure from the Reagan administration Iran-Contra etc?
